DuraSmart

Intelligent lamps that make life easier

Easy to use

Control all the lamps in the house, in the shop, in any room. The number of connections is equal to the number of lamps in the system. Control distance is within the 100 meters range of the router

Smart control

Control your light using smartphones and tablets

Voice control

Talk to your voice assistants and control your light!

Change your environment playing with light

Create fixed or dynamic lighting scenarios to be activated immediately or programmed to switch on or off at specified times, even in the absence of people.

RGB Multicolor

Choose and change the colour of the light

Warm & cool

Change light intensity and tone of white

The benefits?

EN

Scenarios

Create new lighting scenarios and create unique atmospheres

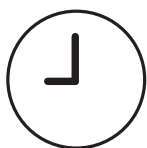

Convenient

You can operate the light while sitting on the sofa or in bed!

Amazing

Change the atmosphere around you with ease

Settings

Set a timer to program the lighting switch off

Enabling

Essential for those who have difficulties with movement

Safety function

Switch the lights on and off in your absence as if someone were in the house

The last light mode you set is restored when you switch it on again

Interacts with the music on your mobile or tablet

How does it work?

Control all the lamps in the house, in the shop, in any room.

1

Download the APP available for Apple and Android, on your mobile phone or tablet

APP TUYA SMART / SMART LIFE

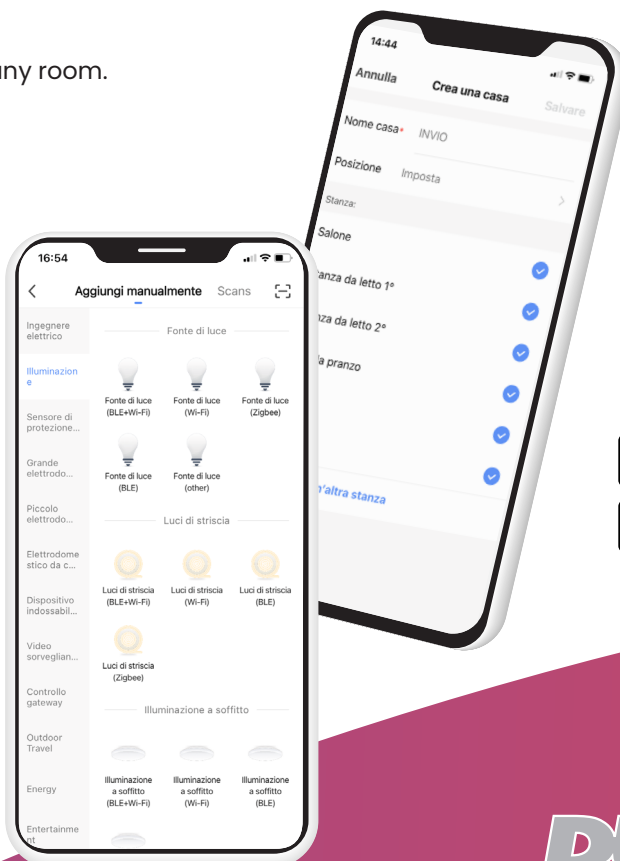

2

The APP automatically 'finds' the Smart Lamps via wi-fi and connects with them to allow you to control them in seconds: quick and easy!

3

Your light is in your hands! Decide the intensity or colour. Wherever you are!
