

Product code: V3180020 EAN: 5901597240198

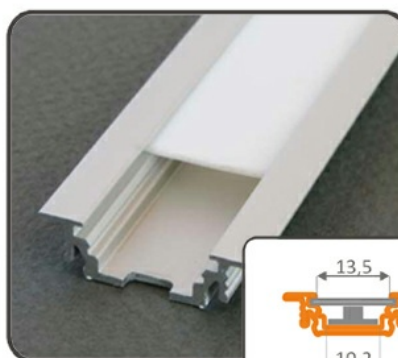

LED profile VARIO30-05 ACDE-9 2000 anod.

Product description

Aluminium LED profiles available on our offer are designed for the assembly of LED strips. The use of aluminium profile and LED strip enables you to achieve professional lighting look without difficult assembly. Anodized aluminium used to create the profile has ideally smooth surface and colour.

Aluminium profiles create protective layer shielding the LED strip from the outside contact that could otherwise damage the LED strip.

On our offer you can find vast choice of LED profile diffusers that perform both protective and diffusing functions or focus the light. Thanks to diffusers there are no visible points of light but the lighting surface is smooth and even.

PROFIL LED WPUSZCZANY

Aluminium anodowane

Do wpuszczenia w szczelinę mebla, płytek, na ścianach lub na sufitach; mocowany bezpośrednio lub za pomocą uchwytu (2-4szt./1m)

Montaż profilu i szybki

Oświetlenie podszafkowe z użyciem taśmy LED RGB

Oświetlenie podszafkowe z użyciem taśmy LED białej zimnej

Przykłady zastosowania

Opcjonalne mocowanie uchwyt 2-4szt na metr profilu

Zaślepka do profilu wpuszczanego

For aluminium profiles we recommend:

Frosted diffuser for LED profiles	Matte diffuser for LED profiles	Snap-in diffuser for LED profiles	Snap-in matte o for LED prof
szybka szroniona	szybka mleczna	Szybka wciskana	Szybka wciskana mleczna

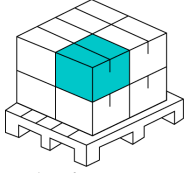

Clear diffuser for LED profiles	End cap for T15 LED profiles kit 2 pcs	Flexible mounting clip for T13/T15/T18 LED profiles	LED line LED strip
Szybka soczewka	Zaślepka	uchwyt sprężysty	taśma LED

90° connector for recessed LED profiles
Łącznik kątowy profil wpuszczany

Name of the parameter	Value
Maximum width of LED strip	3.1 cm
Height	24 mm
Width	33.4 mm
Profile application	Mortice
Length	2000 mm

Name of the parameter	Value
Colour	silver
completion	anodized
