## Zigbee | 0/1-10V / Dali DT6/DT8 dimming module

Article number: 214-268

214-268 is a 2 in 1 dimming module based on ZigBee 3.0, which converts a ZigBee signal output to a DALI DT6/DT8 or 0/1-10V output. Compatible with universal ZigBee based gateways or hubs and easy to use.

### Specifications

Input voltage	110-240V	Length	800 mm	Maximum temperature	75°C
Maximum power	50 Watt	Width	36 mm	housing	
Output current 0/1-10V	20 mA	Height	20.5 mm	Isolation	SELV
Protocol	Zigbee	Cable length	N.v.t.	Certification mark	CE, RoHS
Working temperature	-20°C / +50°C	Connection type	Terminal block	Warranty	5 years
IP rate	IP20	Housing color	White
