LED strip | COB 480LED/m | 10W/m | IP20 | red (620-630nm)

Article number: 127-123

This COB LED strip has no visible LED interruptions. This makes it possible to use the COB strip in undeaap aluminium profiles with a clear cover. With 3M adhesive tape on the back for easy installation.

Maximum 5 meters of LED strip in one single length. Looking to connect multiple lengths to one single power supply? In that case, choose separate LED strips of up to 5 meters each. For a 10-meter run, simply power the strip from both ends.

Features

- Beam angle 180°
- IP20 for indoor use
- Long lifespan of 54.000 hours (L70)
- Double layer PCB for good heat dissipation

Specifications

Type	LED strip	LED type	COB	Height	2 mm
Input voltage	24 Volt	Dimmable	Yes	Cutting distance	62,5 mm
Power	10 Watt p/m	Beam angle	180°	Maximum to connect	5 meter
Luminous flux	180 Lm p/m	CRI value	N/A	Connection type	Stripped wire, 2 sides
Color temperature	Other	IP rate	IP20	Color PCB	White
Light color	Red	Length	5 meter	Certification mark	CE, RoHS
LED quantity	512 p/m	Width	8 mm	Warranty	3 years
